Up for sale, an original set of Rickenbacker Capri pickups used in all the 300 series models! These pickups are in fantastic condition, and the short magnet neck pickup design was only used on these very early Rickenbacker pickups. If your 58-59 Capri is missing the original pickups, nothing else comes close. Both pickups have been tested and have strong output, with the neck pickup reading 8.7k and the bridge reading 7.7K. The chrome covers are in excellent shape, especially considering their age, and some short remnants of the braided pickup cables are attached, although we'd recommend using new full length cables soldered directly to the "hot" and "ground" on the pickups themselves for the best connection.

Don't miss out on this rare original pair of Rickenbacker Capri pickups!

Please check out our shop "Mike & Mike's Guitar Bar" on the web, and feel free to call us directly with any questions at 206.818.9329.
